

FREQUENTLY ASKED QUESTIONS

▲ Why choose an ASC over a hospital?

ASCs are known for their lower cost of care, comfortability and efficiency when compared to hospitals. Our patients' co-pays and out-of-pocket costs are typically less than hospitals. Also, our turnaround time between surgeries is faster, and a patient's surgery will not get bumped by an emergency surgery.

▲ What do I need to bring to my procedure?

Please bring a photo ID and your insurance card for check-in.

▲ What insurances are accepted?

We accept most major insurances. If you have questions regarding coverage, please call us at 618.288.8350.

▲ Are there any food/beverage restrictions before my surgery?

When you schedule your procedure, your doctor will provide you with specific restrictions.

▲ When will I be discharged to go home?

As soon as your recovery is deemed stable, you will be able to go home. We will provide you with follow-up care instructions to carry out at home.

*Providing Patient-Focused
Outpatient Surgery &
Preventative Care*

ABOUT ANDERSON SURGERY CENTER

Our outpatient surgery center is located at the Anderson Healthcare Goshen Campus in Edwardsville, Ill. This state-of-the-art facility offers patients exceptional care with great accessibility and convenient parking in a quiet, relaxed environment. Our friendly medical staff strives to remove the stress and fear of surgery for our patients and their families.

We have a unique pediatric partnership with SSM Health Cardinal Glennon Children's Hospital, including SLUCare Physician Group, enabling us to provide outpatient surgery options for children as well as adults.

WHAT IS AN AMBULATORY SURGERY CENTER?

An Ambulatory Surgery Center (ASC) is a modern healthcare facility that focuses on providing same-day surgical care, including both diagnostic and preventative procedures. As an ASC, we are able to focus on ensuring that our patients have the best surgical experience possible while receiving cost-effective care.
